Service to America Opportunities

Want to serve our nation as a presidentially appointed Local Board Member (LBM) with the Selective Service System (SSS)?

In the event the nation returns to conscription during a national emergency, SSS would activate local boards across America with LBM volunteers deciding exemptions, deferments, and postponements for draft-age inductees, as well as conscientious objectors who are opposed to military service and conflict.

Conscientious objectors would still be required to serve for two years in paid civilian jobs for the benefit of our nation during times of crisis. The role of LBMs are essential to ensuring America's conscription system is consistent, fair, and equitable for all.

America is forever inspired by U.S. Army General and aviation pioneer, James H. Doolittle who said, ***"There is nothing stronger than the heart of a volunteer."*** SSS LBM volunteers are at the heart of SSS and proudly serve in these important roles when America needs them most.

Visit sss.gov/volunteers/request-info/ to apply.
